

A modern lounge area with a woman sitting on a beige sofa, wooden coffee tables, and large windows overlooking a city. The scene is bright and airy, with natural light streaming in from the large windows. The woman is wearing a white shirt and dark pants, sitting on a beige sofa. There are three wooden coffee tables with metal legs in the foreground. Two white vases with dried flowers are on the sofa. The background shows a cityscape through the large windows.

Global product guide

It's Your Office... We make it last a lifetime.

level™ certification, based on the ANSI/BIFMA e3-2010 furniture sustainability standard, sets furniture manufacturers on a path toward greater sustainability over time. Based on environmental and social criteria set forth in the standard, a product's entire supply chain is assessed.

Certification assessment includes an evaluation of specific corporate policies and guidelines and an assessment of associated company manufacturing facilities. Products must meet quantifiable milestones of environmental and social performance at every step of development.

The quantitative assessment addresses four categories: material use, energy and atmosphere impacts, human and ecosystem health and social responsibility.

Manufacturers earn points in each of the four categories. The level™ brand and its numeric rating of 1, 2 or 3 indicate what threshold of certification a product has achieved. level™ 3 is the highest rating.

Global (Hospitality) has recently become the only furniture manufacture to-date to be certified under the hospitality's Green Key program. Global products can now contribute to a hotels operating and sustainable ratings helping them garner higher eco-ratings.

The Green Key Eco-Rating Program is a graduated rating system designed to recognize hotels, motels and resorts that are committed to improving their environmental and fiscal performance.

Based on the results of a comprehensive environmental self-assessment, hoteliers are awarded a 1-5 Green Key rating and provided with guidance on how to "unlock" opportunities to reduce environmental impacts and operating costs through reduced utility consumption, employee training, and supply chain management.

The GREENGUARD mark means that a product has been tested using stringent environmental chamber methods and found to meet GREENGUARD's Indoor Air Quality Standards. GREENGUARD Certified Products are low emitting and contribute minimal levels of pollutants to indoor environment.

What customers will look for in Certified Products:

VOC Emissions vs. VOC content

Has the product been tested in the last 12 months?

Has the product been proven to emit acceptable levels of VOC's and formaldehyde?

Is the product readily available?

Is the product competitively priced?

Has the product received independent third-party certification?

Buildings are LEED certified

Products are GREENGUARD certified

ISO 14001:2004 CGSB EMS 08035

ISO (International Organization for Standardization) is the world's largest developer and publisher of International Standards.

ISO 14001 is an international environmental management system which assures our customers that they are buying products from a company that cares about the environment, enhances the company's image and saves money.

Think Global

Think of this as your "showroom in a book" . Inside, you will find hundreds of products at all price points – seating, desks, files, tables, panels and computer accessories – ready for quick delivery.

Our modern warehouse and shipping facilities provide the most popular products in our latest textiles and finishes.

Whether you order a chair, a bank of files or a complete office, our dealer network can provide you with whatever you need, when you need it. Together, we offer you a full range of Global products and services.

Bridges

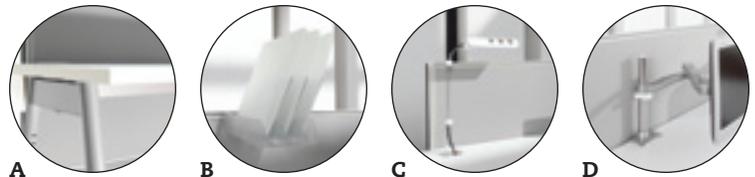

Bridges is a versatile series of work tables designed to enhance communication. Linear table assemblies maintain work and data/power service support while providing a user with the ability to define and facilitate their personal work style and space.

Shown in Designer White (DWT) laminate tops with Tungsten (TUN) legs with Roma seating (page 62-63) in Match, Orange (MT23) and Autumn Orange (AC70) back. Shown with 97WP-23BF Pedestals in custom orange finish. For additional colors and options please consult your local Global representative. Panels shown in Momentum Pensive, Lunette.

Features:

A. Leg frame finish is a durable, environmentally friendly epoxy powder coating. **B.** A built-in accessory rail is designed to accommodate off-desk accessories for workspace organization. **C.** Tulip personal task light that can be desk mounted or freestanding. **D.** Several monitor arm options available.

One person layout shown in Designer White (DWT) laminate with Designer White (DWT) legs with Proietto seating (page 54) in Match, Orange (MT23). Round Table in Grey (GRY) finish with Designer White (DWT) legs.

Junction

Junction is an affordable solution for boardroom, classroom and presentation room applications. Freestanding configurations are also possible by adding legs, allowing worksurfaces to be easily reconfigured while providing flexibility for changing classroom and boardroom environments.

Junction Features:

A. A shared leg configuration provides more legroom and decreases the overall costs. **B.** Options include: Modesty Panel with integrated wire trough and / or large Electrical Manager. **C.** Glides are standard, casters are optional. **D.** Optional Power/Data Module.

Above: JNR2448 Rectangular Top and JNHFS2454 (Half Round Top) in Tiger Maple (TMP) laminate and GJNLEG24 legs in Tungsten (TU2) with Global Accord (page 42-43) seating. Total Price as shown Starting At (seating not included) **\$2438.**

Top of Page: JNRU2472 Rectangular Table Tops and JNSS2424 Keystone Table Top in Winter Cherry (WCR) laminate, and GJNLEG24 legs in Tungsten (TU2) with Roma seating (page 62-63). Total Price as shown Starting At (seating not included) **\$3346.**

Bungee

Bungee comes complete with table tops, legs and Bungee cords, allowing quick and easy reconfiguring of table settings without using any tools. The multi-usage Bungee Tables are an affordable investment for growing companies looking for versatile and efficient meeting solutions. Ideal for classrooms, training rooms and boardroom settings.

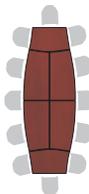

Above: Bungee cords connect tables securely and may be arranged without risk of damage to tops or connectors. The innovation lies with the unique "bubble molding" edge design which compresses under the tension of the cords and creates a seal that serves to locate and align interconnected tables.

Top of Page: B2036RES Rectangular Table Tops with B36MP13 Modesty Panels in Avant Honey (AWH) laminate with Spider Legs in Black with Sonic seating (page 94). Total Price as shown Starting At (seating not included) **\$7112**.

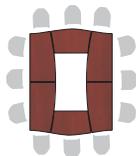

Bungee Package Configurations:

Meeting with Leader
(seats 12)

Starting At..... **\$1319**

Shadow's True Response™ Support System was designed to encourage movement while automatically adjusting to your body's seated position. Designed by Zooy Chu.

Features:

A. Seat Depth - Attached with four rubberized bushings results in a new "floating" seat concept, encouraging proper posture and constant muscle contact. **B.** Back Movement - Backrest is attached with three rubberized bushings which allow the backrest to flex and move in any direction, adjusting automatically to the user's movements. **C.** Synchro-Tilter - When the user tilts back, the angle of the back and seat adjust at a two-to-one ratio. **D.** Lumbar Movement - The lumbar area of the backrest can be height adjusted up and down until support is centered in the right spot. **E.** Arm Rotation - The armcap swivels 30° left or right and positively locks into position. **F.** Arm Height - 4-inch vertical travel allows the arm to raise and lower to accommodate different users. **G.** Arm Width - Arms slide closer to and away from the seat to accommodate generous, average and slender users.

Triumph

Ergonomic Features: A, B, C, D, E, F, G, H, M, N, Q, S

Fabric Starting At **\$1034**
Leather/Mock Starting At **\$1308**

Triumph offers active ergonomics in an Executive Task chair with lumbar support that adjusts both horizontally and vertically. Additional features include a seat depth adjustment to accommodate the length of your thighs. Designed by Zooney Chu.

Features:

A. Seat Slider (MD) - Sliding seat provides two inches of seat-depth adjustment with an easily accessible lever on left side of the chair. **B.** Standard Base - Base is polished die cast aluminum (B5) and complements the polished aluminum back trim. **C.** Adjustable Lumbar Support - The polished aluminum back trim is part of the adjustable lumbar support. The lumbar can be adjusted horizontally by turning the knob, and vertically by moving the slider up or down. It is the ultimate adjustment for exactly the right fit.

Priority

Priority's slim, sleek profile incorporates a compression-molded wood back that follows and supports the ergonomic contours of the spine. Models can be upholstered in leather, fabric or in any combination.

Features:

A. The arm design wraps around the back profile to accent the series' slim style and is available in chrome, black or tungsten finishes. **B.** Knee-tilt mechanism features a convenient, side tension adjustment and an independent multi-position tilt-lock. **C.** Injection molded glass filled nylon base. Polished aluminium die cast base is shown above. **D.** A complementary side and guest chair is available with a steel cantilevered base in chrome, black or tungsten finishes.

Auburn

Ergonomic Features: A, B, C, M, N, S

Auburn provides beautiful transitional styling and comfort. The unique arm frame is formed from cast aluminum for exceptional strength with armcaps finished in soft, self-skinned urethane (SSU) making the surface extremely durable to the touch. A polished aluminum arm frame and base are available as an option.

Starting At..... **\$885**

Flexar is designed with an executive style loop arm that pivots in three spots as the chair tilts. This articulating arm allows the chair back to recline more rapidly than the seat, so the operator's feet are not lifted off the floor while the chair is tilting.

Features:

A

B

A. Sophisticated arm pivots at three points to allow smooth, synchronized seat and back movement. **B.** Base and frame are standard in a Tungsten colored finish (TUN).

Starting At..... **\$650**

Mirage is a stylish option for managerial and meeting room seating. Choose from two back heights, standard with both a polished aluminum loop arm and spider base.

Features:

A

B

A. Polished aluminum loop arm. **B.** Arched polished aluminum spider base.

Proietto

Ergonomic Features: A, B, C, D, E, F, G, H, M, N, Q, S

This elegantly designed series features high and medium back task chairs as well as a complementary side chair. Sleek mechanisms and distinctive stitch details give Proietto its unique styling.

Azeo provides adjustable and flexible “active” lumbar support. It can be adjusted to provide a varied intensity of lumbar support and will flex in response to the user’s body movements and requirements. Designed by Zooney Chu.

Features:

A. Extended Backrest: Provides additional neck and shoulder support (available on certain models). **B.** Lumbar Support: Flexes with the user’s body movement, conforming to body shape. Lumbar tension is adjustable. **C.** Height Adjustable Arms: Adjust up to 4” to help alleviate arm and wrist discomfort. **D.** Molded Base: Provides exceptional strength and stability. Carpet casters are standard. Hard surface casters and glides are optional.

Textiles and Finishes

Care & Cleaning

Fabrics: To extend the life of your seating upholstered in fabric, regularly dust the chair to prevent airborne particles from penetrating the fabric surface. For light soiling, use a damp cloth and blot the spot with very slight pressure, taking care never to soak the fabric. Dry with a clean cloth by blotting - never rub the fabric. More intense stains can be treated the same way, but with a mild detergent. Always test fabric first in an unseen area before using any cleaning method.

Leather: For regular cleaning, simply use a soft damp cloth, taking care not to soak the leather. For more thorough cleaning treatment, soak a soft cloth in mild soap solution and wipe surface in a light circular motion. Repeat with clean water. Allow to dry and polish with a soft dry cloth. Do not use detergents, aerosol sprays or other polishes.

Wood Seating & Desk Finishes: Follow the direction of the grain, wipe with a soft damp cloth, then a dry one. For heavier soils, try a mild soap solution, then repeat the above steps.

Laminate & Painted Metal Finishes: Using a soft cloth, simply wipe the surface with a mild soap solution or glass cleaner. Always use a dry cloth and circular motion to prevent streaks.

don't worry **we've got you covered**

OFFERING YOU A LIFETIME OF VALUE THAT'S ALWAYS IN STYLE

YOU CAN FEEL GOOD ABOUT YOUR DECISION TO BUY GLOBAL FURNITURE.

We have you covered so you can enjoy your purchase without worrying about future quality issues.

WHAT'S COVERED UNDER THE GLOBAL LIFETIME WARRANTY?

Global's Lifetime Warranty covers seating, desks, tables, panels, metal storage and filing...everything you would need in a contract work environment covered for the life of the product.

NO WORRIES on plastic components, casters, glides, pneumatic cylinders, arm structures, arm caps, metal and wood frames as well as bases.

NO WORRIES on drawer slides, trays, locks, keys, metal legs and grommets.

NO WORRIES on panel frames, edges and work surfaces.

WHAT IF I NEED MORE INFORMATION?

Consult the current Global list price book or simply contact Global Customer Relations at 800-220-1900.

Global offers you a lifetime of product protection

Everything you would need in a contract work environment covered for the life of the product.

LEED PARTNERSHIP PROGRAM

Products can help you earn credits

GREENGUARD CERTIFIED

Children & Schools Certified

THE ENVIRONMENT We believe now more than ever, that it is our responsibility to protect the environment and our precious natural resources for future generations. The growing importance of energy and environmental concerns continues to challenge us in this ever changing marketplace.

As an industry leader, Global continues to take proactive steps towards reducing the negative impacts on the environment. We are building "healthier" offices; investing in Research & Development and new technologies; reducing waste and the consumption of energy; and improving the quality of the air we breathe, all which can have a significant impact on our quality of life.

Global has the products and resources to help your projects achieve LEED certification.

New technology allows us to reduce glue usage by 50%. In addition, our polyurethane glue reduces emissions and requires less energy to apply.

Epoxy Powder coating process is solvent free. No harmful VOC's or lead. No toxins are released into the atmosphere.

Global's recycled fabrics offer affordable, environmentally responsible alternatives to commercial textiles. We recycle 35,000 lbs of fabric offcuts weekly.

Ergonomic Features

A TENSION ADJUSTMENT

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

B CHAIR TILT LOCK

Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position. (can be either single position or infinite style).

C SEAT HEIGHT

Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

D BACK HEIGHT

Raise or lower to position lumbar support in your lumbar area. Reduces likelihood of back pain.

E SEAT DEPTH

Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

F FORWARD SEAT ANGLE

Allows chair to tilt forward changing the angle of your thighs in relation to the floor. Helps reduce disc pressure during forward leaning tasks.

G BACK ANGLE

Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

H ARM HEIGHT

Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

J KNEE-TILT MOVEMENT

Chair tilts from a pivot point at the front of the seat, keeping your feet on floor as you rock. Maintains stability while enhancing blood flow.

L SYNCHRO-TILT MOVEMENT

Backrest reclines at a faster rate than the seat, increasing the angle between your torso and thighs. Enhances comfort and encourages dynamic body movement.

M WATERFALL SEAT EDGE

Reduces pressure at the back of the knee, contributing to good blood flow.

N PROPERLY CONTOURED CUSHIONS

Support the body effectively, allowing you to sit longer without discomfort.

P VIBRATING BACK/SEAT

Soothing effect contributes to your relaxation during work breaks.

Q WIDTH ADJUSTABLE ARMS

Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular effort in neck and shoulders.

R ARM ROTATION

Rotate armcap to support your forearm in various positions. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

S CENTER-TILT MOVEMENT

Chair tilts from a pivot point under the center of the seat allowing you to rock. When your feet are well supported, blood flow is enhanced.

T PUSH BUTTON

Push to activate control. Location within reach increases your adjustment. Promotes good posture as you move to various positions.

Maximize Your Ergonomic Seating

Every Global chair is built with features that are ergonomically designed to promote proper posture and provide maximum comfort. While fully supporting your body, these features also allow you to adjust your chair to fit YOU.

Always select a chair that is designed for the type of work you perform and make certain the chair is comfortable for the length of time spent using it. Ensure that the seat and back cushions are contoured to fit your body, which will help eliminate pressure points. An ergonomically designed chair should allow changing positions easily. As you work, reposition yourself throughout the day to reduce strain and stress on specific muscle groups. If you change job functions, adjust your chair to fit the new task.

Proper ergonomic seating should help eliminate many of the work related injuries that result from poor posture and poorly designed seating.
